Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at www.plazaschool.org.

Updates will be given to staff throughout the year pursuant to the aforementioned statute.

Anyone (students, staff or school visitors) should report sexual harassment to the Plaza School administrator immediately. The report will remain confidential. There should be no fear in reporting an incident. The school administrator will explain the Plaza Elementary School District Sexual Harassment Policy and go to work for you.

State of California Education Code Definition

212.5. "Sexual harassment means unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature, made by someone from or in the work or educational setting, under any of the following conditions: (a) Submission to the conduct is explicitly or implicitly made a term or a condition of an individual's employment, academic status or progress. (b) Submission to, or rejection of, the conduct by the individual is used as the basis for employment or academic decisions affecting the individual. (c) The conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment. (d) Submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the educational institution.

Sexual Harassment Complaints should be addressed in accordance with AR 4031(a). The complainant may file a written complaint to his/her supervisor or school administrator or may first attempt to resolve the situation informally with the school administrator.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Students are expected to come to school in appropriate school clothes, which do not in any way distract other students from the educational process. All students shall be required to show proper attention to personal cleanliness, hygiene, and modesty while at school. The student's general appearance while at school should not attract undue attention nor cause embarrassment to either the wearer or others. If a pupil's appearance or dress causes any type of disruption or distraction they may be asked to remedy the problem. California courts support reasonable, clear school regulations governing the appearance of students. Additionally the district recognizes the importance of appropriate dress and grooming as a career skill since most jobs require appropriate dress.

If available, a student may change into appropriate clothing provided by the school. If clothing is not available, the student may call home for assistance, but may not leave school during class time to change. If the clothing violation cannot be resolved, the student will remain in the office for the remainder of the day and must do all assigned class work. Time away from class due to a student's decision to violate the dress code can be recorded as an unexcused absence for the time missed.

Students violating the dress code will face appropriate disciplinary measures. Notes will be made on the student's discipline record to track warnings and/or violations. Repeat offenders will be considered in defiance of school policy and appropriate disciplinary action shall be imposed, up to and including suspension.

Dress Related to Gang Attire/Clothing Etc.- No gang-related colors, symbols, or paraphernalia may be worn. Such items include, but are not limited to, long belts, bandanas and beanie hats. Wallet chains are not permitted to show while on campus. Clothing with specific numbers, symbols, pictures deemed inappropriate by administration are not permitted on campus. Bandana's of any color may not be worn or displayed at any time.

Gang Affiliation and Activity-The Governing Board finds that street gangs, which initiate or advocate activities, which threaten the safety and well being of persons or property are harmful to the educational process. Students participating in any type of gang display or activity are directly creating an unsafe environment to other students who must come to school according to California State Law. Throwing signs, using hand signals, gang style clothes, displayed numbers, jewelry, accessories, books, shoestrings, buttons, belts/buckles or manner of grooming which implies a membership in a gang creates a danger to other students and is prohibited on campus. Any incidents involving initiations, hazing, intimidations or gang related activities of such group affiliations would be investigated and appropriate disciplinary action (including arrest) will be taken. Any student wearing, carrying, writing or displaying gang paraphernalia, numbers, bandanas, etc., or making gestures which symbolize gang membership or causing an incident which affects another student's attendance or school work shall be referred to police for gang documentation. Repeat or first time offenders are subject to disciplinary action up to and including suspension, expulsion, and/or involuntary transfer to an alternative campus.

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

VISITORS-In accordance with California Penal Code 627.2 all visitors must check into the office upon arrival. All students must be signed out. Only persons registered through their enrollment packet or approved personally by a parent will be allowed to sign out parents.

Important Anyone found on campus who has not properly checked in must return to the office and do so. Any person who refuses to comply with this procedure may be subject to loss of visitation privileges or prosecution under subsections 626 and 627 of the California Penal Code.

Conduct Code Procedures

PREFACE

Faculty

In order to assure a climate which is conducive to a good education program, policies relating to various types of misconduct have been developed. If these policies are going to work smoothly, they must be enforced fairly. It must, also, be noted that those discipline policies which relate to students must, also, be applied to staff, as students look upon staff as a model.

The Board of Trustees expects that each staff member will administer the discipline policies with fairness to all students. Staff will report violations of these policies by students to the administration and serious complaints or administrative observation of staff misconduct (demeaning students, use of vulgar language, making off-color, abusive insinuations or jokes, etc.) will be documented and the staff member disciplined.

Students

Whether referred to the administration by staff member or via administration sources, violations of conduct and their consequences are listed below (not listed in order of importance or severity.) Staff members who refer students must indicate the misconduct as minor or major degree. These rules also apply to students at school activities, on or off campus events, home and/or away, and on buses.

The following behavior, according to Education code 48915, warrants a mandatory expulsion from school or a letter to the Board stating the conditions of behavior, consequences, and reasons for not expelling the student:

1. Causing serious physical injury to another person, except in self-defense.

2. Possession of any firearms, knife, explosive, or other dangerous object of no reasonable use to the pupil at school or at a school activity off school grounds.
3. Unlawful sale of any controlled substance listed in Chapter 11(commencing with section 11053) of Division 10 of the Health and Safety Code.
4. Robbery or extortion.

Mandatory Recommendation and Mandatory Expulsion

The principal, superintendent or designee shall recommend that the Board expel for one year any student found at school or at a school activity to be: (Education Code 48915c)

1. Possessing as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certified school employee, with the principal or designee's concurrence.
2. Brandishing a knife as defined in Education Code 48915(g) at another person.
3. Unlawfully selling a controlled substance listed in Health and Safety Code 11053-11058.
4. Committing or attempting to commit a sexual assault or committing a sexual battery.

Upon finding that the student committed any of the above acts, the Board shall expel the student. (Education Code 48915)

Expulsion means removal of a student from the immediate supervision and control, or the general supervision, of school personnel. (Education code 48925)

Notification to Law Enforcement Authorities

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons of firearms in violation of Penal Code 626.9 and 626.10. (Education code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol, or intoxicants of any kind. (Education Code 48902)

Enforcement/Discipline

The Administration will take appropriate action to eliminate the possession and use of tobacco and related paraphernalia (such as roach clips, roll-your-own "cigarette" (joint papers) on campus.R

Opioid Prevention and Life-Saving Response Procedures

Emergency Medication for Opioid Overdose

The district may elect to make emergency naloxone hydrochloride or another opioid antagonist available at schools for the purpose of providing emergency medical aid to persons suffering, or reasonably believed to be suffering, from an opioid overdose. In determining whether to make this medication available, the Superintendent or designee shall evaluate the emergency medical response time to the school and determine whether initiating emergency medical services is an acceptable alternative to providing an opioid antagonist and training personnel to administer the medication. (Education Code 49414.3)

When available at the school site, the school nurse shall provide emergency naloxone hydrochloride or another opioid antagonist for emergency medical aid to any person exhibiting potentially life-threatening symptoms of an opioid overdose at school or a school activity. Other designated personnel who have volunteered and have received training may administer such medication when a school nurse or physician is unavailable, and shall only administer the medication by nasal spray or auto-injector. (Education Code 49414.3)

At least once per school year, the Superintendent or designee shall distribute to all staff a notice requesting volunteers to be trained to administer naloxone hydrochloride or another opioid antagonist, describing the training that the volunteer will receive, and explaining the right of the volunteer to rescind the offer to volunteer at any time, including after receiving training. The notice shall

also include a statement that no benefit will be granted to or withheld from any employee based on the offer to volunteer and that there will be no retaliation against any employee for rescinding the offer to volunteer. (Education Code 49414.3)

The principal or designee may designate one or more volunteer employees to receive initial and annual refresher training, based on standards adopted by the SPI, regarding the storage and emergency use of naloxone hydrochloride or another opioid antagonist. The training shall be provided at no cost to the employee, conducted during regular working hours, and be provided by a school nurse or other qualified person designated by an authorizing physician and surgeon. Written materials provided during the training shall be retained at the school for reference. (Education Code 49414.3)

A school nurse, other qualified supervisor of health, or, if the district does not have a qualified supervisor of health, a district administrator shall obtain a prescription for naloxone hydrochloride or another opioid antagonist for each school from an authorized physician and surgeon. Such prescription may be filled by local or mail order pharmacies or manufacturers. (Education Code 49414.3)

If the medication is used, the school nurse, other qualified supervisor of health, or district administrator, as applicable, shall restock the medication as soon as reasonably possible, but no later than two weeks after it is used. In addition, the medication shall be restocked before its expiration date. (Education Code 49414.3)

Information regarding defense and indemnification provided by the district for any and all civil liability for volunteers administering naloxone hydrochloride or another opioid antagonist for emergency aid shall be provided to each volunteer and retained in the employee's personnel file. (Education Code 49414.3)

A school may accept gifts, grants, and donations from any source for the support of the school in carrying out the requirements of Education Code 49414.3, including, but not limited to, the acceptance of the naloxone hydrochloride or another opioid antagonist from a manufacturer or wholesaler. (Education Code 49414.3)

The Superintendent or designee shall maintain records regarding the acquisition and disposition of naloxone hydrochloride or another opioid antagonist for a period of three years from the date the records were created. (Business and Professions Code 4119.8)

Safety Plan Review, Evaluation and Amendment Procedures

The Plaza School District's Comprehensive School Safety Plan will be reviewed, evaluated, and amended (as necessary) in October, December, and January of each school year after consultation with local law enforcement and fire personnel, as well as board trustee and staff input and recommendations from School Site Council. Pursuant to Education Code 35294.6(a), Plaza School District adopted this annual comprehensive school safety plan at a regular meeting of the Board of Trustees as noted on the cover page. An opportunity for public comment was provided during this meeting, prior to the plan's adoption. Documentation of this meeting, which may include the meeting agenda, minutes and copies of materials provided for the plan presentation, will be filed alongside the plan and recorded in Appendix A: Documented Safety Planning Process. An updated file containing all appropriate or required safety related plans and materials are available for public inspection at www.plazaschool.org or in our school office.

Plaza Elementary Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Types of Emergencies & Specific Procedures

Aircraft Crash

Aircraft Crash Please follow the Procedures for Evacuation:

- Evacuate classes to assigned fire evacuation areas, unless special instructions are given. (Example may be: “evacuate all students and staff immediately to the basketball courts.”)
- Classroom doors are to be closed, but not locked.
- Teachers are to take their students to the designated area, take roll, and remain there until instructed to do otherwise.
- Do not return to the classroom, unless instructed by the administration to do so.
- Teachers will be notified via messenger or intercom how and when to evacuate students off campus.
- If a student is injured, the teacher should send the class to a designated area with a “buddy” teacher and remain with the injured student.

Animal Disturbance

Animal Disturbance In the event of a vicious or rabid animal on campus, the following procedures are:

- Advise a school administrator and safely evacuate the area.
- At the order of the school administrator, initiate soft lockdown procedures.
- If the lockdown procedure has been initiated, remain in the classroom until the “all clear” has been given. Return to normal classroom or office routine when animal has been removed.
- The administration or office staff will contact Animal Control of a suspected rabid animal situation and request their assistance.
- Do not allow students, school, or office personnel to attempt to capture or interfere with the animal in any way.

Bus Disaster

Bus Accidents

In the event of a school bus accident, the driver shall immediately notify the CHP and the Superintendent or designee. The driver shall not leave the immediate vicinity of the bus to seek aid unless necessary.

The Superintendent or designee shall maintain a report of each accident that occurred on public or private property involving a school bus with students aboard. The report shall contain pertinent details of the accident and shall be retained for 12 months from the date of the accident. If the accident was not investigated by the CHP, the Superintendent or designee shall forward a copy of the report to the local CHP within five work days of the date of the accident.

The Superintendent or designee shall review all investigations of bus incidents and accidents to develop preventative measures.

Earthquake

When prompted-Inform students that after a serious, large earthquake an evacuation “fire drill” tone may be sounded to evacuate the school according to normal fire drill routes. Read through and discuss the sections that follow.

Duck and Cover:

- Take cover under or next to a sturdy object
- Teacher-help special needs students take cover
- Talk calmly to students
- Stay covered at least 30 seconds, or until shaking stops

When No Cover is Available

- Move to an inside wall
- Kneel next to wall facing away from windows

- Cover head and neck with hands and elbows; if coats are available, cover heads with them to protect from glass

When Outside

- Stay outside
- Take cover in an open area away from falling hazards
- Talk calmly and give instructions

If On School Bus or Car

- Driver should stop as quickly as possible
- Park away from buildings, highway overpasses, power poles, trees
- Passengers should stay in the vehicle and duck and cover as well as possible

Safety Considerations- Explain to the class that if there is a strong earthquake, each student's first responsibility is for his or her own personal safety. Every student should learn, however, how to help someone else who is injured. Present some "what if" questions to provoke discussion.

- What if the teacher is injured?
- What if a student is cut by shattered glass and is bleeding?
- What if someone is hit by a falling light fixture or heavy object and knocked out?
- What if a student is very upset by the earthquake?

Emotional Considerations

Lead a discussion with the students about the reactions they may have to an earthquake. Mention that it is normal to feel very frightened, worried, or even physically sick. Some people respond to fear by crying and some by laughing. Have the students talk about what they can do after an earthquake to help themselves and their classmates feel less scared and worried.

It may take a long time for parents or caregivers to get to the school, so everyone should be prepared to wait patiently. Students may be very worried about their parents or siblings; in fact they may be "worried sick". Have students discuss what they can do to help each other pass the time and not worry so much. Point out that if their family has made an earthquake plan, they will have a better idea of what to expect from each family member.

Possible Hazards of Evacuation to Discuss

- Power failure (is there emergency lighting?)
- Halls or stairways cluttered with debris-ceiling tiles or plaster from walls
- Halls blocked by fallen lockers or trophy cabinets
- Smoke in the hallway
- Exit doors and windows that jam and will not open
- Aftershocks could hit while they're evacuating (in which case, students drop and cover where they are).
- Bricks, glass and debris piled up, outside electrical wires on the ground

Discuss with the students how the hazards could be reduced, and/or how they could cope with them if they happened.

Flooding

Flooding Severe Windstorm / Flood

In the event of a severe windstorm or flood, the following procedures are:

- At the order of the school administration, initiate lockdown or evacuation procedures.
- Do not dismiss or evacuate students unless directed by school administration.
- Direct that all windows and doors be secured. Close blinds.
- If high winds, direct all students to stay away from windows.
- If severe flooding, move to a higher location as directed by school administration.
- Evacuate classrooms or offices that are determined to be danger areas.
- Should crisis situation still exist past regular dismissal time, students and staff shall be held until notified by the school administration.

Loss or Failure Of Utilities

Electrical Power Outage

In the event of a power outage, the following procedures are:

- Teachers and students are to remain in their classrooms unless instructed to do otherwise by their school administration.
- Students are to remain in class until notified by administration, even if the class time has expired.
- Special care should be taken to shut down electrical equipment that may have been running at the time of the outage, (e.g., computers, televisions, etc.).
- Administration and staff in charge of buildings should check that there are no problems created by the outage. A check should be made by campus monitors or assigned staff members for students or staff caught in areas such as restrooms, work rooms, etc.
- Teachers and staff are to inform the school administration of any students or staff who may need special assistance in the event of an evacuation or release from school.
